What's New In?

CadStd Lite is the standard format for architectural blueprints and is recognized by the likes of UKCad, BricsCAD, Australia Design, Austria 2D, and others. CadStd Lite is an open, concise and affordable format that is easy to use and export in a plethora of CAD programs. It is also used to archive and share designs and is recognised by the US military and most CAD companies. CadStd Lite is a standard and recognised format for designing architectural blueprints that is recognised by many CAD companies. It is easy to use and export for a variety of software programs, such as AutoCAD, ArchiCAD, AutoCad LT,

Deltop, ProCAD, Indesign and many more. 2D & 3D CAD application CadStd Lite is a 2D & 3D drafting format that is an industry standard for the designing of architectural blueprints. CadStd Lite is used in a variety of construction projects from residential and industrial to educational and military. CAD companies, such as UKCad, BricsCAD, Australia Design, Austria 2D and others recognise the format and it is the standard that is used for archiving, sharing and design. The most common application of CadStd Lite is the construction of building plans and blueprints for residential and commercial projects. The

drawings can be used to capture the construction stage and show the design in one cohesive document, saving hours of drafting time. Architectural design for commercial, residential and industrial projects CadStd Lite is the ideal architectural drafting application for the creation of plans and blueprints for residential and commercial projects. Residential projects may include extensions, new rooms, renovations, floor plan and other projects. For commercial projects it could include renovations, additions or the addition of a new department. CadStd Lite is a standard format that is a trade mark for the world of

architecture. CadStd Lite is recognised by the US military, their contractors and the CAD industry. The format is used to archive and share design documents. CAD compatible format CadStd Lite is a CAD compatible format for the creation of blueprints, drawings and plans. CadStd Lite is an industry standard and recognised format, recognised by UKCad, Australia Design, Austria 2D and others. UKCad is an award winning CAD software provider that offers CAD compatible formats including:
